INDEPENDENT AUDITOR'S REPORT

Board of Directors
Nueces County Water Control and Improvement District No. 3

Members of the Board:

Report on the Financial Statements

We have audited the accompanying financial statements of the Nueces County Water Control and Improvement District No. 3 as of and for the year ended January 31, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Nueces County Water Control and Improvement District No. 3 as of January 31, 2020 and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

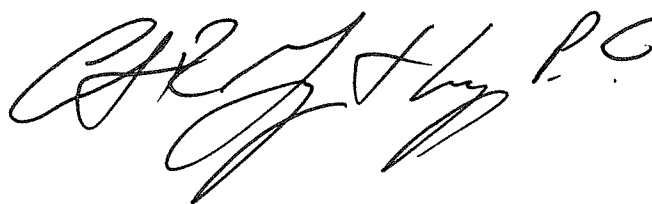

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis and budgetary comparison information* on pages 9 through 13 and pages 41 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Nueces County Water Control and Improvement District No.3's basic financial statements. The Other Supplemental Information and the Texas Supplementary Information ("TSI") such as the TSI Schedules 1 thru 8 are presented for purposes additional analysis and are required by the Texas Commission on Environmental Quality ("TCEQ") and are not a required part of the basic financial statements.

The Other Supplementary Information and the Texas Commission on Environmental Quality supplementary information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Other Supplementary Information and the Texas Commission on Environmental Quality supplementary information listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
Management's Discussion and Analysis
Fiscal Year ended January 31, 2020

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Nueces County Water Control and Improvement District No. 3 (District), we offer readers of the District's financial statements this narrative overview and analysis of the District's financial activities for the year ended January 31, 2020.

Overview of the Financial Statements

The intention of this discussion and analysis is to serve as an introduction to the District's basic financial statements.

The District operates a single enterprise fund. The enterprise fund has the characteristics of business-type (proprietary) activities. Like a private enterprise, the District charges a user fee at a level designed to recover all costs. The District may decide how to spend their revenue and resources to provide the service in the most efficient and effective way. Since the resources usually are not restricted to specified uses, there is no need to segregate the resources and their expenditures into funds for financial reporting purposes. Accounting for this type of activity focuses on measuring all costs of the activity, including, for example, depreciation and costs related to long-term commitments. It also focuses on reporting net operating income to determine the necessary level of user fees.

Statement of Net Position: This statement presents information on all of the District's assets, deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

Statement of Revenue, Expenses and Changes in Net Position: This statement presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Statement of Cash Flows: This statement presents cash receipts, cash payments, and net changes in cash resulting from operating activities, capital and related financial activities, and investing activities for the year presented.

Notes to the Financial Statements: The notes provide additional information that is essential to the full understanding of the data provided in the financial statements.

Other Information: This report also contains other supplementary information as required by the Texas Commission on Environmental Quality and the Operational Budgetary Comparison Statement.

In this section of the Annual Financial and Compliance Report, we, the managers of Nueces County Water Control and Improvement District No. 3, discuss and analyze the District's financial performance for the fiscal year ended January 31, 2020. Please read it in conjunction with the independent auditors' report on pages 7 thru 8, and the District's Basic Financial Statements which begin on page 16.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
Management's Discussion and Analysis
Fiscal Year ended January 31, 2020

Financial Highlights

- Total assets and deferred outflows of resources for fiscal year ending January 31, 2020 were \$18,675,766.
- Total liabilities and deferred inflows of resources for fiscal year ending January 31, 2020 were \$6,720,171.
- The net position of the District increased by 1.58% to \$186,497 from fiscal year ending January 31, 2019.
- The District's charges for services increased by 3.10% to \$4,642,605 from fiscal year ending January 31, 2019.
- The District's expenses increased by 2.73% to \$4,291,226 from fiscal year ending January 31, 2019 excluding non-operating expenses.

Financial Analysis of the Water District as a Whole

The District's net position at the end of the fiscal year was \$11,955,595. This is an \$186,497 increase over last year's net position. The following table provides a summary of the District's net position as of January 31, 2020.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
Management's Discussion and Analysis
Fiscal Year ended January 31, 2020

At the end of fiscal year ending January 31, 2020, the District had assets totaling \$18,608,433 which was a decrease of the previous year total by 3.46%. These assets include such things as land, water treatment facilities, raw water facilities, etc. These assets are required to provide services to the District customers and therefore are not available for liquidation or for future spending. The increase of 1.58% in the District's net position indicates that the District improved its financial position during fiscal year end January 31, 2020.

Nueces County Water Control and Improvement District No. 3				
Summary of Changes in Net Position				
	1/31/2020	1/31/2019	Variance Increase/ Decrease	Percent Change
Revenues:				
Program Revenues:				
Charges for Services	\$ 4,606,466	\$ 4,475,837	\$ 130,629	2.92%
Expenses:				
Operating Expenses	4,544,244	4,462,860	81,384	1.82%
Operating Revenue over Expenses	62,222	12,977	49,245	379.48%
Non-operating Revenue				
Investment Income	88,136	78,617	9,519	12.11%
Miscellaneous Revenue	36,139	39,468	(3,329)	-8.43%
Total Non-operating Revenue	124,275	118,085	6,190	5.24%
Change in Net Position	186,497	131,062	55,435	42.30%
Net position at beginning of year	11,769,098	11,638,036	131,062	1.13%
Net position at end of year	\$ 11,955,595	\$ 11,769,098	\$ 186,497	1.58%

Total charges for services for the District decreased by 3.10% to \$139,698 which total expenses increased by 2.73% to \$4,291,226 from fiscal year ending January 31, 2019. The increase in revenue is primarily related to an increase in total water sold in fiscal year ending January 31, 2020 as compared to fiscal year ending January 31, 2019.

Analysis of Changes in Capital Assets and Long-Term Debt (or Capital Asset Administration)

Capital Asset

The District's capital assets as of January 31, 2020 were \$11,054,156 (net of accumulated depreciation). These capital assets include land and land improvements, reservoir facilities, water treatment and transmission facilities, water treatment and transmission facilities, buildings, other equipment and water rights. The total decrease in the District's capital assets for the current year was 2.94%.

The District had additions in capital assets in the amount of \$278,604, capital asset deletions in the amount of \$0 and a net increase in accumulated depreciation in the amount of \$611,394. This results in a net decrease in capital assets from January 31, 2019 in the amount of \$332,790.

Long-Term Debt

During fiscal year January 31, 2020, the District did not have new additions to debt obligations. At the end of the fiscal year, the District had total outstanding debt of \$5,685,384. Outstanding long term debt included a Refunding Bond of \$3,695,000 and a note with CoBank in the amount of \$1,990,384. Short term debt at the end of fiscal year January 31, 2020 consisted of \$169,066 with CoBank. A summary of the District's debt is summarized in the following chart.

**Nueces County Water Control and Improvement District No. 3
Outstanding Debt**

	1/31/2020	1/31/2019	Variance Increase/ Decrease	Percent Change
Series 2006 Refunding Bond	\$ 3,695,000	\$ 4,225,000	\$ (530,000)	-12.54%
CoBank Note	1,990,384	2,152,829	(162,445)	-7.55%
Totals	\$ 5,685,384	\$ 6,377,829	(692,445)	-10.86%

Capital Asset Management

The District does not use the modified approach to assess the condition of its capital assets for the balance sheet presentation.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
Management's Discussion and Analysis
Fiscal Year ended January 31, 2020

The Budget, Economic Environment, and Rates

The annual budget outlines the District's plans to continue to provide high quality, cost-effective service to its customers. Moving into the fiscal year ending January 31, 2021, the District foresees a small increase in its customer base which may lead to an increase in revenue. The District remains committed to looking for ways to improve its daily production and maintenance practices in order to remain as efficient as possible. With the implementation of the raw water surcharge the District has enacted, some of the debt service costs have been absorbed. The District will evaluate these practices on a continuing basis to see if future rate changes will be necessary.

The fiscal year ending January 31, 2020 will include the continuation of projects that should improve the services provided. These projects include the continuation of installing new radio read meters and the start of installing new membrane modules for the treatment plant. The District strives to provide quality water and customer service to all customers, both large and small, and intends to continue to grow into something everyone can be proud of.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at Nueces County Water Control and Improvement District No. 3.

As management of Nueces County Water Control and Improvement District No. 3 we offer this narrative overview and analysis of the financial activities of the District for the fiscal year ending January 31, 2020. The information presented here should be considered in conjunction with the District's financial statements.

This discussion and analysis is designed to provide general overview of the District's finances. Questions concerning this or other financial information should be directed to the District Manager at Nueces County Water Control and Improvement District No. 3, 501 E. Main Street, Robstown, Texas.

NOTE 1: ORGANIZATION AND NATURE OF OPERATIONS

Nature of Operations

Nueces County Water Control and Improvement District No. 3 was created by Revised Civil Statute Article 7622 by order of the Commissioner's Court of Nueces County on September 30, 1920 under the authorities of Section 59 of Article 16 of the Constitution of the state of Texas and Chapters 49 and 51 of the Texas Water code to be governed by and operated under the provisions of Chapter 3A, Title 128, revised Civil Statutes of Texas, 1925. The Board of Directors held its first meeting on October 8, 1920, and the first bonds were approved for sale on November 19, 1921.

The District is an autonomous political sub-division of the state and its principal function is the sale and distribution of water to the community of Robstown, Texas. The District exercises no control over any other governmental agency or authority and its governing body is a Board of Directors who are elected by the users of the District services. The management of the District is the responsibility of the district manager, who is appointed by the governing Board. The District is subject to the rules and regulations administered by the Texas Commission on Environmental Quality.

Approximately 4,260 customers are served by the District.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The District is Self-supporting from business-type activities and does not employ fund accounting in its financing reporting. The District's resources are not restricted to specified uses and it does not segregate the resources and expenditures into funds for financial reporting purposes. The financial activities of the District are reported as proprietary/enterprise activities and are reported using the economic resources measurement focus, which uses the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of when the related cash flows take place. Proprietary funds account for operations that are organized to be self-supporting through user charges.

The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's principal ongoing operations. The principal operating revenues of the District are charges to customers for water sales. Operating expenses for the District include the cost of sales, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District applies Government Accounting Standards Board (GASB) pronouncements as well as the Financial Accounting Standards Board pronouncements, unless those pronouncements conflict with or contradict GASB pronouncements. The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. GAAP.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets

Capital assets are started at cost, less accumulated depreciation. Depreciation is computed on a Straight-line basis over the useful lives of the respective assets. Major outlays for capital assets and Improvements are capitalized as projects are constructed and depreciated once placed in service. The capitalization threshold established by the District is \$3,000.

Assets Class	Estimated Useful Lives
Buildings	30
Utility system and improvements	20-40
Autos and equipment	5-20

Deferred Outflows/inflows of Resources

In addition to assets and liabilities, the statement of net assets will sometimes report a separate Section for deferred outflows of resources or deferred inflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption or acquisition of net position that applies to a future periods(s) and so will *not* be recognized as an outflow of resources (expense) or inflow of resources (revenue) until that time.

The District has one item that qualifies for deferred outflows of resources reporting. *Deferred Outflow of resources for pension items* – This deferred outflow results primarily from pension plan contributions made after the measurement date of the net pension liability and the results of differences between projected and actual earnings on pension plan investments. The deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other pension related deferred outflows will be amortized over a closed five year period.

The District has one item that qualifies for deferred inflows of resources reporting. *Deferred inflows of resources for pension items* – This deferred inflow results from differences between expected and actual actuarial experiences. This amount will be amortized over a closed five year period.

Budgetary Controls

Budgetary accounting is employed as a management tool for internal planning and control since the District activities are “business-type” and are fully self-supporting from user fees. Annual operating budgets are adopted each fiscal year through passage of an annual budget and the same basis of accounting is used to reflect actual revenues and expenses recognized on a generally accepted accounting principles basis. The adopted budget is not a spending limitation under law. The District does not utilize an encumbrance method of allocating funds.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investments in capital assets consists of capital assets net of accumulated depreciation and the outstanding balances of any borrowing spent for the acquisition, construction or improvements of those assets. Net position is reported as restricted when limitations are imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors or laws or regulations of other governments.

Compensated Absences

All full-time employees are entitled to certain compensated absences based on their length of employment. Compensated absences for vacation, sick leave, and personal time off are combined into one paid-time off bank. Compensated absences have a vesting portion based on hours accumulated times the current rate of pay to be paid upon retirement. An employee may sell up to 40 hours of banked time to the District at the end of the year and/or may carryover a maximum of 40 hours to the following year. The amount of paid-time off that can be banked is capped at a maximum of 30 days, or 240 hours. Any unused paid time off above the capped 240 hours expires by December 31st of each year. An estimated liability for this amount is reflected in the financial statements in the amount of \$99,572 as of January 31, 2019.

Pensions

The District participates in an agent multiple-employer defined benefit pension plan. The fiduciary net position of the Texas County and District Retirement System (TCDRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability or asset, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TCERS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amount reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributed Systems

Occasionally, developers may install new water service taps and donate them to the District. These donated water taps have not been reported as revenues and capital assets of the District.

NOTE 3: CASH AND CASH EQUIVALENTS

Cash and cash equivalents include all demand deposit accounts, money market accounts, and cash on hand. In addition, the District maintains restricted cash in interest bearing government investment pools to meet bond and loan covenants. All certificates of deposit have been classified as investments.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. Funds on deposit with each bank were insured by FDIC up to \$250,000. Funds on deposit with the District's primary banks were also collateralized with securities held by the various entities or by its agent in the entity's name. There were no funds held in other banks in excess of FDIC insurance that were uncollateralized with securities as of January 31, 2020.

Investments that are represented by specific identifiable investment securities are classified as to credit risk by the categories described below:

- Category 1: Insured or registered securities held by the District or its agent in the District's name.
- Category 2: Uninsured and unregistered, with securities held by the counterparty, or by its Trust Department or agent in the District's name.
- Category 3: Uninsured and unregistered, with securities held by the counterparty, or by its Trust Department or agent but not in the District's name.

In accordance with GASB Statement No. 3 – *Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*, which is required to provide financial statement users assess the risk an entity takes in investing public funds, the District's readily available government pooled investments in TexPool and TexSTAR are not categorized in the three risk categories provided above because these investments are in a pool of funds and therefore not evidenced by securities that exist in physical or book entry form.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 3: CASH AND CASH EQUIVALENTS (continued)

Public Funds Investment Pools

In accordance with GASB Statement No. 79 – *Certain External Investment Pools and Pool Participants*, if a participant has an investment in a qualifying external investment pool that measures for financial reporting purposes all of its investments at amortized cost it should disclose the presence of any limitations or restrictions on withdrawals (such as redemption notice periods, maximum transaction amounts, and the qualifying external investment pool’s authority to impose liquidity fees or redemption gates) in notes to the financial statements. As of January 31, 2020, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit the District’s access to 100 percent of their account value in either external investment pool.

TexPool is a public funds investment pool created by the Texas Treasury Safekeeping Trust Company (Trust Company) to provide a safe environment for the placement of local government funds in authorized short-term, fully-collateralized investments, including direct obligations of, or obligations guaranteed by, the United States or State of Texas or their agencies, federally insured certificates of deposit issued by Texas banks or savings and loans, and fully collateralized direct repurchase agreements secured by United States Government agency securities and placed through a primary government securities dealer.

The Trust Company was incorporated by the State Treasury by authority of the Texas Legislature as a special purpose trust company with direct access to the services of the Federal Reserve Bank to manage, disburse, transfer, safekeep, and invest public funds and securities more efficiently and economically. The State Comptroller of Public Accounts exercise oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters.

Texas Short Term Asset Reserve Program (TexSTAR) has been organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. These two acts provide for the creation of Public funds investment pools (including TexSTAR) and authorize eligible government entities (Participants) to invest their public funds and funds under their control through the investment pools.

For purposes of the Statement of Net Position, the District considers its investment in public funds investment pools to be cash equivalents.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rate will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As of January 31, 2020, the government investment pool in TexPool and TexSTAR are carried at amortized cost, which generally approximates the market value of securities, to value the whole portfolio in accordance to GASB 79 – *Certain External Investment Pools and Pool Participants*.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 3: CASH AND CASH EQUIVALENTS (continued)

As of January 31, 2020, the District held \$3,478,342 in TexPool, an investment service offered to local governments by the State Treasury government investment pool. The primary objective to TexPool is to provide a safe environment for the placement of public funds in short-term, fully collateralized investments that have the full faith and credit of the U.S. Government. Of the funds on deposit with TexPool, the Reserve Fund (January 31, 2020 balance of \$698,115) is restricted according to the requirements of the Series 2006 Refunding Notes. As of January 31, 2020, the District also held \$263,816 in TexSTAR, an investment service created by local governments for local governments. TexSTAR is a local government investment pool that provides security, liquidity and efficiency for the Management to public funds. The funds on deposit with TexSTAR are restricted in accordance with the requirements of the CoBank note.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the District’s investment policy and the Texas Public Fund Investment Act and the actual rating as of year-end for each investment.

Description	Minimum Legal Rating	Amount	Rating	Percentage
TexPool	AAAm	\$ 3,478,342	AAAm	92.95%
TexSTAR	AAAm	\$ 263,816	AAAm	7.05%
		----- \$ 3,663,542		----- 100%

NOTE 4: INVESTMENTS

Investments consist of a certificate of deposit held with Texas Champion Bank in the amount of \$145,000 with a maturity date of October 19, 2020.

The District also has an investment with CoBank, a cooperative which offers a broad range of competitively priced, flexible loan programs, leasing services and other financial services. This investment is a result of a loan taken out with CoBank, which allocates to the District their portion of equity dividends based on CoBank’s profit each year. The aggregate carrying amount of the CoBank investment is \$34,833 at January 31, 2020. This investment has not been evaluated for impairment because CoBank did not identify any events or changes in circumstances that might have an adverse effect on fair value.

NOTE 6: LONG-TERM DEBT

Long-term debt outstanding as of January 31, 2020 is as follows:

<i>As of January 31, 2020</i>	\$
Series 2006 refunding notes	3,695,000
CoBank note	1,990,384
Total	5,685,384
Less prepaid insurance costs	(27,914)
Less current portion of long-term debt	(169,066)
Total long-term debt, net of current portion	<u>5,488,404</u>

Originally, the District issued Revenue Notes in 2001. Proceeds were used for permanent Improvements to the System including building, constructing, enlarging, repairing and expanding the System, and for materials, supplies, and machinery for the System.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

In 2006, the District issued Series 2006 Refunding Notes in the amount of \$7,785,000 as a result of refinancing the bonds originally issued in 2001. This Series carries a coupon rate of 4.20% with a repayment period of 21 years. The net proceeds of the issue (\$7,555,996) were deposited in an irrevocable trust with an escrow agent to provide for future debt payments on the Series 2001 Revenue Notes. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the District’s financial statements. The refunding bond issuance costs of \$134,056 have been expensed in accordance with GASB No. 65. Principal payments are due annually of each year until maturity on February 15, 2027. Interest payments are due semi-annually of each year at an interest rate of 4.2%.

The 2006 Refunding Bond has a cost of insurance prepaid in the amount of \$91,226, which is reported as a direct deduction from the carrying amount of the debt and is included in “notes payable – noncurrent portion” in the accompanying statement of net assets. The amount is being amortized through operations over the term of the Refunding Notes (21 years) and reported net of accumulated amortization. The balance of the debt issuance costs, net of accumulated amortization, as of January 31, 2020 was \$30,396.

According to the terms of the Series 2006 Refunding Notes, the District is required to establish a Reserve Fund for the purpose of maintaining a reserve equal to the Average Annual Debt Service Requirements on the Notes. The TexPool Reserve Fund is maintained to satisfy this condition and had a balance of \$698,115 as of January 31, 2020.

The funding requirements for the Refunding Notes Series 2006 are summarized in the table below:

Year Ending January 31	<u>Principal Due</u>	<u>Interest Due</u>	<u>Reserve Fund Due</u>	<u>Total Funds Required</u>
2021	-	77,595	-	77,595
2022	555,000	143,535	-	698,535
2023	575,000	119,805	-	694,805
2024	600,000	95,130	-	695,130
2025	630,000	69,300	-	699,300
Thereafter	1,335,000	56,595	(698,115)	693,480
Totals	<u>\$ 3,695,000</u>	<u>\$ 561,960</u>	<u>\$ (698,115)</u>	<u>\$ 3,558,845</u>

During 2014, the District secured a loan from CoBank in the amount of \$2,772,500. Proceeds from this note are being used to finance expenses related to the improvement of the raw water system. During the construction phase, interest associated with this note was expensed as incurred. This note carries a fixed interest rate of 4.082% and matures October 20, 2029. The terms of the CoBank note require the District to maintain a debt service reserve account in the amount of \$250,000. The funds held with TexSTAR are maintained to satisfy this condition and had a balance of \$263,816 as of January 31, 2020.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 6: LONG-TERM DEBT (continued)

The funding requirements for the CoBank note are summarized in the table below:

Year Ending January 31	<u>Principal Due</u>	<u>Interest Due</u>	<u>Reserve Fund Due</u>	<u>Total Funds Required</u>
2021	169,066	77,991	-	247,057
2022	176,429	70,942	-	247,371
2023	183,871	63,600	-	247,471
2024	191,627	55,953	-	247,580
2025	199,563	47,988	-	247,551
Thereafter	1,069,828	111,579	(263,816)	917,591
Totals	<u>\$ 1,990,384</u>	<u>\$ 428,053</u>	<u>\$ (263,816)</u>	<u>\$ 2,154,621</u>

NOTE 7: EMPLOYEE RETIREMENT PLAN

Plan Description

The District and its employees participate in the Texas County and District Retirement System (TCDRS) which was established by the Texas Legislature. The board of trustees of TCERS is responsible for the administration of the statewide agent multiple-employers public employee retirement system consisting of approximately 700 nontraditional defined benefit pension plans.

The plan provisions are adopted by the governing body of the District, within the options available in the Texas state statutes governing TCERS. The plan covers substantially all of the District's employees and requires equal matching contribution by employees and the District. Members are eligible to retire at age 60 and above with ten or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more.

Employees Covered by Benefit Terms

At the December 31, 2018 and 2019 valuation and measurement date, the following employees were covered by the benefit terms:

	2018	2019
Inactive employees or beneficiaries currently receiving benefits	12	12
Inactive employees entitled to but not yet receiving benefits	7	9
Active employees	<u>28</u>	<u>25</u>
Total	<u>47</u>	<u>46</u>

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 7: EMPLOYEE RETIREMENT PLAN (continued)

Contributions

The employee contribution rates are set by the District and are currently 7%. The District monthly contributions to the plan will be at a rate that equals or exceeds the required rate as annually determined on an actuarial basis. The rate consists of a normal cost contribution rate plus the rate required, as a level percent of payroll, to amortize the unfunded actuarial liability over the plan's 15-year amortization period or to amortize the overfunded actuarial accrued liability over the plan's 30-year amortization period. Both the employees and the District make contributions monthly. The District made contributions of \$96,563 and \$92,067 during the fiscal year ended January 31, 2020 and 2019 respectfully.

Actuarial Assumptions

The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Valuation Timing	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which the contributions
Actuarial Cost Method	Entry Age Normal
Amortization Method	Straight-Line amortization over Expected Working Life
Asset Valuation Method	5-year Non-asymptotic
Inflation	2.75%
Salary Increases	Varies by age and service. 3.25% average over career including inflation with average approximate 1.6% per year for a career employee.
Investment Rate of Return	8.00%, net of administrative and investment expenses, including inflation.
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age to service retirement for recent retirees is 61.
Mortality	
Deposing members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for female, projected with 110% of the MP-2014 Ultimate scale after 2014.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 7: EMPLOYEE RETIREMENT PLAN (continued)

Service retirees, beneficiaries
and non-depositing member 130% of the RP-2014 Healthy Annuitant Mortality Table for male and
110% of the RP-2014 Healthy Annuitant Mortality Table for females,
both projected with 110% of the MP-2014 Ultimate scale after 2014.

Mortality

Disabled retirees 130% of the RP-2014 Disabled Annuitant Mortality Table for males and
115% of the RP-2014 Disabled Annuitant Mortality Table for females,
both projected with 110% of the MP-2104 Ultimate scale after 2014.

**Changes in Assumptions
and Methods Reflected in
the Schedule of Employer
Contributions** 2015: New inflation, mortality and other assumptions were reflected.
2017: New mortality assumptions were reflected.

**Changes in Plan Provisions
Reflected in the Schedule of
Employer Contributions** 2015 & 2016: No changes in plan provision were reflected in the Schedule.
2017: New Annuity Purchase Rates were reflected for benefits earned after
2017.

2018: No changes in plan provisions were reflected in the schedule.

2019: No changes in plan provisions were reflected in the schedule.

Long-Term Expected Rate of Return

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultant, Cliffwater LLC. The numbers shown are based on January 2019 information for a 10-year time horizon.

Note that the valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on 30-year time horizon: the most recent analysis was performed in 2017. See Milliman's TCDRS investigation of Experience report for the period January 1, 2013-December 31, 2016 for more details.

(1) Target assets allocation adopted at the June 2020 TCDRS Board meeting

(2) Geometric real rates of return equal the expected return minus the assumed inflation rate of 1.80%, per Cliffwater’s 2020 capital market assumptions.

(3) Includes vintage years 2006-present of Quarter Pooled Horizon IRRs.

(4) Includes vintage years 2005-present of Quarter Pooled Horizon IRRs.

(5) Includes vintage years 2007-present of Quarter Pooled Horizon IRRs.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 7: EMPLOYEE RETIREMENT PLAN (continued)

Discount Rate

The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not included in (1), calculated using the municipal bond rate.

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in the year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan's fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments. If an evaluation of the sufficiency of the projected fiduciary net position compared to projected benefit payments can be made with sufficient reliability without performing a depletion date projection, alternative methods to determine sufficiency may be applied.

In order to determine the discount rate to be used by the employer we have used an alternative method to determine the sufficiency of the fiduciary net position in all future years. Our alternative method reflects the funding requirements under the employer's funding policy and the legal requirements under the TCDRS Act.

1. TCDRS has a funding policy where the Unfunded Actuarial Accrued Liability (UAAL) shall be amortized as a level percent of pay over 20-year closed layered periods.
2. Under the TCDRS Act, the employer is legally required to make the contribution specified in the funding policy.
3. The employer's assets are projected to exceed liabilities in 20 years or less. When this point is reached, the employer is still required to contribute at least the normal cost.

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

NOTE 7: EMPLOYEE RETIREMENT PLAN (continued)

4. Any increased cost due to the adoption of a COLA is required to be funded over a period of 15 years, if applicable.

Based on the above, the projected fiduciary net position is determined to be sufficient compared to projected benefit payments. Based on the expected level of cash flows and investment returns to the system, the fiduciary net position as a percentage of total pension liability is projected to increase from its current level in future years.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes.

Therefore, we have used a discount rate of 8.10%. This rate reflects the long-term assumed rate of return on assets for funding purposes of 8.00%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

As additional documentation for auditing purposes, we have shown the projection of the Fiduciary Net Position in the following exhibit (“Projection of Fiduciary Net Position”).

Sensitivity Analysis

The following presents the net pension liability of the District, calculated using the discount rate of 8.10%, as well as what the District’s net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7.10%) or 1 percentage point higher (9.10%) than the current rate.

	1% Decrease 7.10%	Current Discount Rate 8.10%	1% Increase 9.10%
Total pension liability	\$ 8,660,677	\$ 7,794,461	\$ 7,040,485
Fiduciary net position	7,856,103	7,856,103	7,856,103
Net pension liability / (asset)	\$ 804,574	\$ (61,643)	\$ (815,618)

Deferred Inflows/Outflows of Resources

As of December 31, 2019, the deferred inflows and outflows of resources are as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$47,225	\$14,731
Changes in actuarial assumptions	\$8,360	\$0
Difference between projected and actual investment earnings	\$0	\$194,922
Contributions subsequent to the measurement date	\$11,748	\$0
Total	\$67,333	\$209,653

NUECES COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 3
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED JANUARY 31, 2020

\$11,748 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending January 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended Dec 31:	
2021	\$(36,282)
2022	\$(40,566)
2023	\$31,685
2024	\$(108,905)
2025	\$0
Thereafter	\$0

Amounts currently reported as deferred outflows of resources and inflows of resources related to pensions, excluding contributions made subsequent to the measurement date, will be recognized in pension expense as follows:

NOTE 8: WATER SERVICE RATES

The following water service rates were in effect during fiscal year ended January 31, 2020:

First 2,000 gallons – minimum bill	\$ 44.00
Next 4,000 gallons	\$ 4.00 per 1,000 gallons
Over 6,000 gallons	\$ 5.25 per 1,000 gallons

NOTE 9: PRIOR PERIOD ADJUSTMENT

None

NOTE 10: SUBSEQUENT EVENTS

The System has evaluated subsequent events through February 10, 2021, the date which the financial statements were available to be issued.

NOTES TO SCHEDULE OF CONTRIBUTIONS
FOR THE YEAR ENDED JANUARY 31, 2020

Valuation Date: Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry age
Amortization Method	Level percentage of payroll, closed
Remaining Amortization Period	1.8 years
Asset Valuation Method	5-yr smoothed market
Inflation	2.75%
Salary Increases	Varies by age and service. 4.9% average over career including inflation.
Investment Rate of Return	8.0%, net of investment expenses, including inflation.
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on
Mortality	In the 2015 actuarial valuation, assumed life expectancies were adjusted as a result of adopting a new projection scale (110% of the MP-2014 Ultimate Scale) for 2014 and
Other Information:	There were no benefit changes during the year.
