

JOB ANNOUNCEMENT

The Nueces County Water Control and Improvement District #3 will be taking applications for one (1) position for District Manager. Applications will be taken until the position is filled.

Candidate must possess a high school diploma or GED and a Texas driver's license.

It is preferred but not required that candidate possess the following:

1. A bachelor's degree in business or public administration. Ten (10) years experience having served in a managerial or supervisory capacity in the public or private sector can be substituted in lieu of a degree.
2. A Class B water operator's license or the ability to obtain the license in the time frame allotted by the Texas Commission on Environmental Quality. Candidate must be able to take accredited training courses in water distribution, treatment and maintenance.
3. Ten (10) years experience and thorough knowledge of engineering practices applied to water maintenance, distribution and treatment.
4. Thorough knowledge of rules and regulations of TCEQ pertaining to potable water.
5. Ability to review and interpret and analyze engineering plans and specifications.
6. Ability to prepare technical and administrative reports and to make presentations.
7. Ability to administer project coordinations and negotiations.
8. Ability to perform other related duties, as assigned.

Applications are available at the administrative office located at 501 East Main. For further information or to inquire call (361) 387-4549.

Hector Benavidez
Interim-District Manager
